Short Description

Sunpak 34,000 BTU Black Infrared Mounted Heater S34

Description

The Sunpak 34,000 BTU Black Infrared Mounted Heater (S34) By AEI Corporation. This outdoor heater is simple to operate and uses draft free and highly energy efficient infrared radiant energy just like the sun's warming rays. SUNPAK® heaters warm object rather than trying to inefficiently heat the air. Each heater will heat about 12' x 12' area depending on wind conditions. SUNPAK® heaters have been installed world-wide in thousands of premium residential and commercial installations. The Sunpak® Model S34 has a slim profile which works well in a wide variety of patio settings. We provide both black and stainless steel Sunpak® infrared heaters for your convenience.

Commercial and Residential Infrared Heaters

SUNPAK® heaters were specifically designed to provide heated comfort for a variety of different patio settings. When properly integrated into a patio design, SUNPAK® infrared hanging heaters generally increase the comfort level 5 to 10 degrees Fahrenheit outdoors. The heating effectiveness will depend on air temperature, wind velocity and other factors.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
