Residential and Commercial Hanging Heaters

Made in the USA, Sunpak® heaters effortlessly deliver warmth and decorative appeal to any patio or outdoor space. Sunpak® heaters utilize infrared technology to heat individuals and objects, which is why Sunpak® is one of the most efficient outdoor heating options available on the market today. Sunpak® heaters feature smooth, slim designs and come in versatile mount models. This makes Sunpak® hanging heaters perfect for any patio setting without becoming an obstructive piece of equipment.

Outdoor Patio Heating

Sunpak® heaters can be mounted to durable overhead canopies, roofs, and other reliable structures. The SUNPAK® Model S34 S is slim and unobtrusive and heats objects in the direct area without taking up any space on your patio deck or outdoor area. Homeowners who entertain family and guests frequently, restaurant owners, and hospitality businesses alike can benefit greatly from the addition of a patio heater that complements any dining set. Sunpak® infrared heaters make it easy and convenient to heat your guests and customerseven on cloudy or chilly days.
