Short Description

Sunpak 24K-34K BTU Black Infrared Heater S34-B-TSH

Description

The Sunpak 24K-34K BTU Black Infrared Heater (S34-B-TSH) By AEI Corporation. SUNPAK® S34 B TSH (#12042) has a two stage output 25,000 to 34,000 BTU controlled by a duplex switch with "ON-OFF-HIGH-LOW" capability. All SUNPAK® heaters are CSA Design Certified and are equipped for clean burning, cost effective, and highly efficient natural gas or propane fuels. The Sunpak S34-TSH (Two Stage Hardwired) infrared heater is completely hardwired for convenience with no need for a remote control. This specific Sunpak heater is controlled through a simple duplex switch that allows for an output of either 25,000 or 34,000 BTUs of heat. All units are installed with spark ignition and a 100% shutoff for safety.

Maintaining Infrared Heaters

Overtime, especially during extended times of non-use, your Sunpak heater can gather dirt /debris in and

around the pilot and the burner. We suggest routine maintenance be performed at least once a year by a qualified agency to guarantee optimum performance for your guests.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers.
