Commercial Patio Heating

Sunpak® infrared heaters can be both wall or ceiling mounted. Infrared heaters utilize a unique heating system that warms your guests, like the sun; the SUNPAK® S34 S TSH was designed with multiple BTU options in order to give you the flexibility to warm your guests on a low or high setting. Sunpak® heaters are unvented and need a continuous supply of fresh air and proper ventilation to operate safely. This heater is

not to be used inside residences and other confined areas where the operational and safety requirements of this heater cannot be met. Sunpak® infrared heaters are crafted with a slim profile which works well in a variety of patio settings.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
