Short Description

Infratech 61" 4000 Watt Electric Patio Heater W4024SS

Description

The Infratech 61" 4000 Watt Electric Patio Heater (W4024SS) By AEI Corporation. Infratech classic W-Series products are an excellent choice for most basic installations that require cost-effective controls. Infratech single element heaters are energy efficient, with wide, polished reflectors that provide comfortable and uniform heat coverage. For residential and commercial use, this W4024SS model is made of commercial

grade stainless steel. W-Series heaters are available in a variety of wattages and voltages ranging from 1,500 to 4,000 watts and 120 to 480 volts. These stainless steel heaters feature sleek profiles, recessed mounting options, short standoffs and low clearance heights.

Includes

- One (1) Infratech 61" 4000 Watt Electric Patio Heater

Features

- 4,000 Watts
- 16.7 amps
- 240 Volt
- Available in 208 volts, 277 volts, and 480 volts
- 61 1/4" Length
- 6" Stainless Steel Mounting Kit Included
- UL Listed for Outdoor or Indoor use

- Approximate 10' x 10' Heat Coverage
- Minimal Maintenance Costs
- Custom Powder Coating Available in White, Almond, Beige, Bronze or Black for additional cost
- Flush Mount Kit Available: #18-2305
- 3 Year Warranty
- Made in the USA

Infrared Technology with Quartz Element

Infratech quartz elements provide pleasant medium wave heat. Competing heaters utilize short wave halogen elements which produce a more intense heat and emit a bright, harsh-colored light. By contrast, Infratech medium wave elements effectively heat your space, while providing a soft, warm glow that is practically unnoticeable. Infrared heaters require no oxygen from the room, and they often reduce the need for humidifiers during the winter, as they do not dry out the air. Meanwhile, various other heaters circulate warm air through a fan, which heats the air, but reduces the oxygen and the amount of humidity in the room.

Outdoor Heaters Built to Last

Infratech elements are rated for near 5,000 hours of continuous use. In many cases, you will find yourself enjoying your heater for years before a replacement would be necessary. Always refer to the W-Series manual for specific instructions, and be sure to disconnect the power to your heater before attempting to change an element.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
