## Short Description

---

Infratech 29" Slim Line 1600 Watt 120 Volt Electric Patio Heater SL1612

## Description

---

The Infratech 29" Slim Line 1600 Watt 120 Volt Electric Patio Heater (SL1612) By AEI Corporation. Sleek and streamlined, the Slimline Series single element heaters are an ideal choice for surface mount applications. Crisp, modern styling, brushed stainless steel face plate with bronze anodized aluminum housing and narrow profiles virtually disappear in the surrounding decor. The Slimline design also includes a T-slot for flexible mounting options.

- Mounting Height: 6' to 8'
- Approximate 5' x 5' Heat Coverage
- 0 to 60° Mounting Angle

- Minimal Maintenance Cost
- 3 Year Warranty
- Made in the USA

### How They Work

Similar to being warmed by the sun, infrared heaters heat surrounding objects and people, transferring the heat to surfaces and skin. Essentially, infrared heaters don't have any effect on the air whatsoever. Fuel based heaters do. Since they warm only specific areas and objects, you don't waste energy heating an entire room. There's also no need to preheat a room since infrared heat is produced quickly.

### Environmentally Friendly & Cost Effective

Infrared heaters do not produce any pollutants. They operate without any carbon combustion, have no open flames, zero toxic by-products, and no fuel lines. Some Infratech heaters (like our SLIMELINE 29 1/2") use only 1,600 watts of electricity and almost 100 percent of the heat created is transferred out, so you receive an efficient heating system at a very low cost.

### Efficiently Heat Your Home or Workplace

Infratech heaters are over 90% energy efficient, UL listed for outdoor and indoor use and are easy and inexpensive to operate. Infratech products are available in a wide variety of models and sizes, to offer you maximum efficiency, versatility, and convenience. Whether dining outdoors or hosting a courtyard party, Infratech offers the widest range of fixtures and installation options on the market. Slimline heaters are available in 1,600 watt, 2,400 watt, 3,000 watt and 4,000 watts.

### About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
