- Mounting Height: 7' to 9'
- Approximate 8' x 8' Heat Coverage
- 0 to 60° Mounting Angle
- Minimal Maintenance Cost

- 3 Year Warranty
- Made in the USA

Quartz Element Technology

By utilizing quartz elements, our infrared heaters are able to emit a safe, clean wavelength of light that may only be absorbed by solid objects. This means the heat is transferred directly to you from your heater. With these types of heaters your guests don't have to wait to warm up, like with ordinary heaters. With infrared heat they warm up rapidly, with fast acting heat rays that eliminate the cold.

Unaffected by Poor Weather

Infrared heat does not blow away in breezy locations and the quartz elements are completely odorless. Infrared quartz heaters work similar to the sun; they warm people and objects, not the surrounding air. Since quartz heaters only warm specific areas and objects, you don't waste energy heating an entire room. There's also no need to preheat a room since these heaters work instantly. The Slimline design also includes a T-slot for flexible mounting options.

Environmentally Friendly & Cost Effective

Infrared heaters do not produce any pollutants. They operate without an open flames, produce zero toxic by-products, and no require dangerous fuel lines. Essentially, infrared heaters don't have any effect on the air whatsoever. Fuel based heaters do. Some Infratech heaters use only 1,600 watts of electricity and almost 100 percent of the heat created is transferred out, so you receive an efficient heating system at a very low cost. Slimline heaters are available in 1,600 watt, 2,400 watt, 3,000 watt and 4,000 watts.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
