Short Description

Infratech 63" Slim Line 4000 Watt 240 Volt Electric Patio Heater SL4024

Description

The Infratech 63" Slim Line 4000 Watt 240 Volt Electric Patio Heater (SL4024) By AEI Corporation. Sleek and streamlined, the Slimline Series single element heaters are an ideal choice for surface mount applications. Crisp, modern styling, brushed stainless steel face plate with bronze anodized aluminum housing and narrow profiles virtually disappear in the surrounding decor. This high powered unit features 4,000 watts of power for a more concentrated heat. This makes the Slimline Series an ideal choice for premium outdoor heating applications, and spaces with 8' to 11' mounting heights and large scale coverage areas. The Slimline design also includes a T-slot for flexible mounting options.

Infrared Outdoor Heaters

Today more and more people are spending time outdoors. Whether they are enjoying the fresh air or entertaining guests, the fight against poor weather is coming to an end with infrared outdoor heaters. Infrared quartz element heaters are 90% energy efficient, UL listed for outdoor/indoor use and inexpensive to operate. This heater is ideal for use in fine homes, restaurants, hotels and more. With Infratech's Slimline quartz heaters, family and friends can now enjoy the outdoors year long without having to fear sudden drops in temperature.

Quartz Infrared Technology

Infrared heaters use quartz technology which is designed to produce a barely noticeable, comfortable glow that will not affect the mood of your gathering. This is in direct contrast to old and outdated technology such as short wave or halogen electric heaters that use brightly colored light that often casts a harsh glare. Infrared heaters are growing in popularity because they fit into the background and landscape without drawing attention to themselves.

Stay Warm, Support Green Alternatives

Our infrared heating systems are eco friendly, operate silently, are low profile, produce zero negative emissions, and no harsh odors. The Slimline series is safe for rooms in areas like outdoor rooms, terraces, gazebos and patios.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
