### Care and Maintenance

**Frame Care:** Apply the Concrete Protective sealer to your tabletop before using it. Concrete is porous and absorbs oils, acids, and chemicals. Re-apply sealer at least 3 to 4 times per year. Clean spills immediately by rinsing or washing gently by hand using clean water and a soft, nonabrasive cloth and allow to air dry. Avoid using harsh cleaners, oily or acidic substances, brushes, or power washers, which could damage the finish.

For more information, please see the Care & Maintenance PDF.

**Covers & Storage:** To prolong the life of your furniture, we recommend using a protective cover. In areas with harsh winter climate, store the cushions inside of a garage or shed, and cover the frames to prevent damage.
