- Gas will shut-off automatically if the thermocouple does not sense the presence of flame, ensuring increased safety

#### About Manual Flame Sensing Control System

Match-lit, thermocouple equipped control with flame sensing recognition and manual flame height adjustment. The BTU rating with Manual Flame Sensing Control System is 60,000(NG) or 60,000(LP).

#### Warranty

American Fyre Designs' warranty covers manufacturing defects; normal wear and tear is not included. With a little bit of care, your furniture will outlive the warranty for many years.

- Finish and Accessories: Exterior (GFRC) fire features and accessories are warranted for 3 years in a residential setting
- Components: Valves, burners, electrical components, and controls (excluding batteries) are warranted for 1 year in a residential setting

#### Care and Maintenance

Concrete Frame: Concrete is porous and absorbs oils, acids, and chemicals. Clean spills immediately by rinsing or washing gently by hand using clean water and a soft, nonabrasive cloth and allow to air dry. Avoid using harsh cleaners, oily or acidic substances, brushes, or power washers, which could damage the finish.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.

#### About the Manufacturer

Fire brings warmth, glow and serenity, encouraging us to relax and unwind. American Fyre Designs outside fire features enrich your outdoor living space and turn your patio into an outdoor sanctuary inviting conversation that flows well into the night - even when there is chill in the air.
