Description

The sturdy squared edges of the Ribbed Monolith provide a magnificent display of water flow as the water emerges from the top and tumble down the ribbed sides. Featuring an ancient color finish, the fountain is sure to impress all.

The fountain is made of the highest grade fiber reinforced concrete (GFRC), which not only reduces weight but is also much more durable than standard cast stone. The artists behind the making of this fountain have simulated the natural texture of the stone to perfection. Installation is very simple and one can be sure to enjoy the beauty and serenity of this fountain with little effort.
