## Description

---

Featuring an elegant design and a slim body, the I Floor Fountain is sure to accentuate any outdoor setting. Water collects at the top basin before gently flowing over the smooth edges and down the curvaceous body. The tranquil water noise is sure to relax all.

The fountain is made of the highest grade fiber reinforced concrete (GFRC), which not only reduces weight but is also much more durable than standard cast stone. The artists behind the making of this fountain have simulated the natural texture of the stone to perfection. Installation is very simple and one can be sure to enjoy the beauty and serenity of this fountain with little effort.
